

Integrated Curriculum Vitae

Kritee (Kanko), Ph.D.

Zen priest (Osho) and teacher (Sensei)
Senior Scientist, Global Climate, Environmental Defense Fund

Work 303-447-7232

Cell 732-277-8134

E-Mail kritee@boundlessinmotion.org

Social media: [Facebook](#), [Twitter](#) and [Instagram](#)

Eco-Dharma Voluntary leadership at the interface of Spirituality + Activism

- Co-Founder and Executive Director, Boulder Ecodharma Sangha (2013 – present)
- Co-Founder and faculty, Earth-Love-Go (2016 – present)
- Guest lecturer, Naropa University Peace Studies program (2016 – present)
- Co-Founder & Board of Director, Rocky Mountain Ecodharma Retreat Center (2017-present)
- Faculty, Ecosattva training, One Earth Sangha which is expressing a national Buddhist response to climate change and other threats to our one home (2017)
- Impermanent Sangha retreat faculty: Leading wilderness retreats since 2002 (2018)
- Mentor & incoming Wisdom council member, Earth Guardians (Indigenous youth activists) (2018)

Employment

Environmental Defense Fund

Senior Scientist and Senior Manager, Global Climate (Jan 14 – present)
High Meadows Post-doctoral Fellow, Office of Chief Scientist (Nov 11 – Dec 13)

Global climate, environment and health expert involving mercury, nitrogen and agriculture

- Lead Researcher for “Climate smart farming emission measurement program”
 - Participant in presenting and writing proposals/reports to funders
 - Manager of 20 personnel in 6 laboratories across 4 states in India
 - Frequent traveler to India to train multi-partner and multi-lingual team
 - Author of 4 original greenhouse gas and agro-economy centric manuscripts
- Collaboration broker for EDF, agriculture & climate experts in Asia and the U.S.
- Developer of climate smart farming based carbon offset methodologies
- Advisor to [Legal Counsel](#) team on the Mercury and Air Toxics Standards
- [Advocate among scientists](#) & EDF staff [blogger](#)

Princeton University

Dreyfus Post-doctoral Fellow, Dept. of Geosciences (July 08 – Aug 10)

Reactive nitrogen, biogeochemistry, ocean and climate research

- Studied bacterial denitrification and global budget of nitrogen in the ocean
- Published 6 peer reviewed articles & Presented at 3 international conferences

Rutgers University

Post-doctoral research faculty, Dept. of Environmental Science (Sept 10- Oct 11)
Doctoral research assistant (Sept 04- June 08)

Mercury, geochemistry, genetics and bioremediation research:

- Developed techniques to differentiate between different sources of mercury
- Published 12 frequently cited articles (**~500 citations**)
- Co-authored three major Federal funded grants (>\$2 million),
- Received 5 International and domestic awards

New Jersey Board of Public Utilities

Eagleton Fellow, Bloustein School of Planning & Public Policy (Jan -May 08)

Queensland Institute of Medical Research, Australia

Cancer research Intern (Apr–Aug 99)

Education

- 1996-2001** Integrated Bachelors and Masters of Technology (Equivalent of B.S and M.S)
Department of Biochemical Engineering & Biotechnology
Indian Institute of Technology, New Delhi (IITD), India
- 2001-08** Ph.D., Microbiology and Molecular Genetics Program,
Department of Microbiology and Biochemistry
Rutgers University, New Jersey
- 2007-08** Governor's Executive Fellowship
Eagleton Institute of Politics, Rutgers University
- 2016** Permaculture Design Course (PDC)
Central Rocky Mountain Permaculture Institute
- 2017-18** Eco-Social Design & regenerative livelihoods certificate course
Gaia University

Eco-Dharma: Selected interviews and articles (available at boundlessinmotion.org)

- Interview: On being the only Indian Woman Priest in the Zen Tradition, **Secular Buddhist Association** (Podcast) (2017)
- Whiteness and Privilege in Ecodharma: How can we confront them compassionately? Rocky Mountain Ecodharma Retreat Center blog (2017)
- Climate Despair vs. Action: A False Choice? Ecodharma Retreat Center blog (2017)
- One unified movement towards joy, health, kindness and justice: What is our role? (2016)
- Three pillars of Eco-Dharma (Sacred) activist movement (2016)
- This Buddhist Life: Q&A with Kritee: **Tricycle** (2015)
- Climate Takuhatsu (spiritual begging): **Zen peacemakers** blog (2015)
- Understanding Climate drivers: International Western Dharma Teachers Gathering, **Omega Institute** (2015)
- Can our spiritual paths help us to choose heroic and just transitions over global climate chaos? **Tikkun Daily** (2015)
- 'Feeding 9 billion' requires facing up to climate change : **Environmental Defense Fund** blog (2014)
- Embody Fierce Compassion: Buddhists at the People's Climate March: **Buddhist Peace Fellowship** blog (2014)
- EcoScience 101: EcoDharma conference 2014 Wonderwell Mountain Refuge, NH (2014)
- A Primer on the Science of and Policy Response to Climate Change – **One Earth Sangha** (2014)

Awards and Honors

- Dreyfus post-doctoral fellow in Environmental Chemistry, Princeton University (2008-2010)
- Governor's Executive Fellow, Eagleton Institute of Politics, Rutgers University, NJ (2007-08)
- Frank R. Lillie and Wheeler Family Founders' Scholarship, Marine Biological Laboratory (2007)
- American Society of Microbiology's Student Award, Toronto, Canada (2007)
- Author of "a HOT paper," one of most cited papers in the field of Chemistry, American Chemical Society (2007)
- Annual Robison Scholarship Award for Excellence in Graduate Studies, Rutgers Univ. (2007)
- Outstanding student presentation award, The 8th International Conference on Mercury as a Global Pollutant. Madison, WI (2006)
- Graduate Fellow, Undergraduate Research Centre at Rutgers Univ. (Spring 2005)
- Graduate Aptitude Test in Engineering (GATE) Scholarship (99 percentile), India (2000)
- Summer Undergraduate Research Award, Indian Institute of Technology, India (1998).

Eco-Dharma organizational experience (Details available at boundlessinmotion.org)

1. Convener and teacher, Meditation and Eco-Dharma retreats/workshops (2013 – present)
2. Lead convener “Inter-faith Meditate-Pray the Frack out of Boulder” (2017)
3. Convener and speaker: Decolonizing climate activism (2017)
4. Convener and speaker: Three pillars of Ecodharma activism (2017)
5. Multiple events on Standing Rock, Non-violent communication, community-building, honoring emotions, local economies and permaculture (2016 - present)
6. Carbon Karma vigils (2014-2015)

Eco-Dharma Blogs & Interviews

- [Tricycle](#)
- [Tikkun Daily](#)
- [Secular Buddhist Association](#)
- [Rocky Mountain Ecodharma Retreat Center](#)
- [Conscious Unfolding blog](#)

Professional organizational experience

7. Lead convener “Climate smart farming of rice, millets and groundnut: Final result dissemination tour in Andhra Pradesh, Tamil Nadu and Karnataka (2016)
8. Lead convener “The influence of changes in farming practices, vegetation, and land-use on climate adaptation, mitigation and ecosystem and socio-economic services” International American Geophysical Union’s Fall meeting (2014)
Mitigating greenhouse gas (GHG) emissions associated with farming and land use are crucial for avoiding catastrophic climate change. Yet these objectives must be achieved while improving yields to meet the fuel, food and fiber needs of a growing population. The presentations included discussion of the effect of innovative wet (i.e., rice) and dryland farming techniques (including water, fertilizer and/or soil management) on GHG emissions, yields, and socio-economic services.
9. Co-convener of a Special Session entitled “Mercury Emission Reductions in the Power Sector in the U.S” at the 11th ICMGP International Conference on Mercury as a Global Pollutant, which will take place in Edinburgh, Scotland (2013)
10. Co-organizer of “Greenhouse gas (GHG) emission modeling,” an Emerging Issues workshop at Environmental Defense Fund (EDF), New York (2013)
EDF is engaged in a number of agricultural projects where accurate estimates of GHG emissions are needed. Modeling GHG emissions can provide a cost-effective understanding of the carbon footprint of farming activities. Several models (e.g., DNDC and Daycent) are available for estimating GHG emissions and EDF is interested in better understanding these models and where best to apply them.
11. Convener and organizer “Greenhouse gas (GHG) emission measurement,” a hands-on workshop for laboratory staff and experts from the Fair Climate Network, [Accion Fraternal Ecology Centre](#), Anantapur, Andhra Pradesh, India (2012)
12. Convener: [Letter to President Barack Obama in support of Mercury and Air Toxics Rule by mercury physicians and scientists](#) (2011)
13. Organizer -Mercury Biogeochemical Cycling Journal Club, Rutgers University (2011)
Biweekly discussion of hot papers in mercury biogeochemistry for members of several mercury Laboratories at Rutgers and Princeton
14. Co-convener of a session entitled “Mechanistic Understanding of Factors Influencing Non-mass Dependent Fractionation” at American Geophysical Union (AGU)’s Fall Meeting from 14th to 18th December (2009) in San Francisco, CA.

15. Interdisciplinary Environmental Remediation Discussion Club, "PCB contaminated Hudson River Superfund Site" Rutgers University (Spring 2004)

For a group of faculty members, students, community activists and representatives from NJ Department of Environmental Protection held weekly debates on the health effects, risk perception and assessment, and technical feasibility of the available remediation options.

Major Scientific Research Experience

- Understanding the role of water, fertilizer and organic matter application in controlling the emission of greenhouse gases (nitrous oxide and methane), soil health and water quantity and quality at small-holder farms in Asia (with Prof. Steven Hamburg and Richie Ahuja)
- Stable isotope fractionation during denitrification & implications for marine N isotope budget. (with Postdoctoral Advisor, Prof. Daniel Sigman, Princeton University)
- Stable isotope fractionation of mercury during its microbial transformations. (Prof. Tamar Barkay and John Reinfelder, Rutgers Univ. and Prof. Joel Blum, Univ. of Michigan)
- A chemical & computational model to predict genes and analyze prokaryotic genomes. (Masters Advisor: Prof. B. Jayaram, Indian Institute of Technology)
- Study of molecular interactions of a putative tumor suppressor protein p73. (Intern Project: Apr–Aug 1999 (Prof. Martin Lavin, Molecular Oncology Lab, QIMR, Australia)

Federal research grants

- Principle Investigator and author for an ICCO Foundation grant: The Low Carbon Farming Emissions Measurement and Methodology Development Project (2013) € 260,000
- Lead researcher and consultant for writing a grant funded by the National Science Foundation (NSF): "Mass-Dependent and Independent Mercury Isotope Fractionation during Microbial Methylation and Redox Transformations in Natural Waters" (2009) \$400,000
- Isotope consultant for a grant funded by the Department of Energy (DOE): "Defining the Molecular-Cellular-Field Continuum of Mercury Detoxification" (2008) \$1,300,000
- Participation in writing and researching for a funded National Science Foundation (NSF) grant "Collaborative research: Mercury isotope fractionation during microbial and abiotic redox transformations" (2004) \$400,000
- United States Geological Survey (USGS) funded New Jersey Water Research Resource Institute (NJWRI) Graduate Student Grant (2004) \$4000

- Karthik Ram & Abhilash ([Bharat Environment Seva Team](#), Tamil Nadu)
- Soma Shekar & Leela (Social Animation Center for Rural Edu. & Dev., Karnataka)
- Ramakrishna Varaprasad, Kishore ([Timbaktu Collective](#), Andhra Pradesh)

Mentor, Rutgers (2005- present)

Laura Motta	Sophomore, Rutgers	<i>Fall 10- present</i>
Brittany Karas	Junior, Rutgers	<i>Summer 11</i>
Matt Meredith	Senior, Colby College, Maine	<i>Summer 05</i>
Richard Pescatore	Undergraduate Research Centre Rutgers University	<i>Spring 05</i>

Mentor, Princeton (2008-2010)

Jason Cutrera *Fall 08-Fall 09*

Invited Guest Lecturer, Rutgers (2004-2011)

General Microbiology (11:680:390) *3 semesters*
 Microbial Ecology (16:681:572) *4 semesters*

Teaching Assistant, Rutgers (2002-2004)

Applied Microbiology (11:126:486)

1 semester

General Microbiology (11:680:390)

2 semesters

Microbial Ecology (16:681:572)

1 semester

Synergistic Activities

Grant proposal Panel Reviewer

National Institute of Food and Agriculture (NIFA), US Department of Agriculture (USDA)

Reviewer for peer-reviewed journals

Environmental Science and Technology

Journal of Hazardous Materials

Environmental Chemistry

The Science of Total Environment

Chemical Geology

Geochimica Et Cosmochimica Acta

Chemical Engineering Communications

Chemical and Biochemical Engineering Quarterly

Analytical Chemistry

Nutrient Cycling in Agro-Ecosystems

Mentor

Academy for the Advancement of Science and Technology Science Day (2011)
